Portfolio: mohitdayma.netlify.app

Motivated front-end development intern with React experience, seeking to contribute to an innovative team. Skilled in building user-friendly web applications using HTML, CSS, and JavaScript. Proficient in React, implementing complex UIs and interactive features for enhanced user experiences. Solid foundation in C++, bringing a unique problem-solving perspective. Committed to delivering high-quality, optimized code. Actively engaged in continuous learning to stay updated with front-end trends. Eager to bring passion, proficiency in React, and C++ knowledge to contribute to team success. Dedicated to professional growth in front-end development.

Professional Experience

Trainee software engineer SCIQUS INFOTECH PVT. LTD. February 2023 – Aug 2023

Project Title: Customer Portal Development.

- Collaborated on a dynamic customer portal at SCIQUS during internship.
- Developed intuitive front-end with ReactJS and CSS/JavaScript.
- Hosted on Amazon Lightsail with Windows Server and MySQL database.

Projects

Face Detective

- Created a face detection project using the PERN stack (PostgreSQL, Express, React, Node.js).
- Implemented user authentication for user registration and login.
- Deployed the project online using Netlify and Render.

Netflix GPT

- Developed a responsive Netflix clone using React, Redux, and Tailwind CSS, with Firebase integration for secure user authentication and registration.
- Implemented TMDB movie API to dynamically fetch and categorize movies by genres, enriching the platform with a diverse selection of content.
- Engineered an advanced AI search functionality, utilizing an external API, allowing users to discover movies through complex queries like "funny Indian retro movies."
- Ensured a seamless user experience by deploying the application on Firebase, combining efficient hosting with cross-device responsiveness.

YouTube Clone

- Created a YouTube clone with React, Redux, and Vite.
- Replicated core YouTube features, including homepage, smart search, video pages, and live comments.
- Leveraged YouTube API for video data.
- Implemented smart search with efficient debouncing.
- Included detailed video pages with nested comments and live comment support.

Certifications

The Complete Web Developer in 2023: Zero to Mastery (Udemy) | April 2023

FreeCodeCamp Responsive web design

Key Skills

ReactJS, Redux, React-testing-library, HTML, CSS, Tailwind CSS, JavaScript, PostgreSQL, NodeJS, Express, C++, Git, Postman

Education

BTech in Computer Science at N.K. Orchid College of Engg. & tech Solapur 2019 - 2023

HSC Science Walchand College of Arts and Sciences at Solapur 2017 – 2019

S.S.C Little Flower Convent High School at Solapur 2016 - 2017
