EXPERIENCE

Software Engineer-1 (Full Stack Developer)

Jan 2024 - Apr 2025

Reveation Labs

Remote

- Designed and implemented a company website independently using Next.js and Strapi with graphql, enhancing online presence and user engagement.
- Built and maintained backend systems for two company projects using NestJS and MongoDB, ensuring functionality, authentication, and reliability.
- Collaborated on diverse projects utilizing modern frameworks like NuxtJS, Next.js, and Strapi, delivering efficient, full-stack solutions aligned with company objectives.

Frontend Developer Intern

Feb 2023 - Aug 2023

Sciqus Infotech Pvt. Ltd.

Remote

- Collaborated on a dynamic customer portal at SCIQUS during internship
- Developed intuitive front-end with ReactJS and CSS/JavaScript.

PROJECTS

Social Media App | Next.js 15, Tanstack query, DM system(using stream), Postgres with Prisma

- Full-Stack Development Expertise: Built scalable and performant web applications using Next.js 15 with server components and server actions, integrated with Prisma ORM and PostgreSQL for efficient database operations.
- Enhanced User Experience: Implemented advanced features such as infinite scrolling feeds, real-time file uploads (drag and drop, copy-paste), and responsive UIs with Tailwind CSS and Shadcn UI, ensuring optimal performance and accessibility across devices.
- Real-Time and Interactive Systems: Developed robust real-time systems, including a DM platform (Stream-powered), notification system, and full-text search, leveraging technologies like TanStack React Query, React Hook Form, and Zod for validation and optimistic updates.

NetflixGPT | React, Redux, Tailwind CSS, Firebase, TMDB API

- Developed a responsive Netflix clone using React, Redux, and Tailwind CSS, with Firebase integration for secure user authentication and registration.
- Implemented TMDB movie API to dynamically fetch and categorize movies by genres, enriching the platform with a diverse selection of content.
- Integrated an AI search functionality, utilizing an external API, allowing users to discover movies through complex queries like "funny Indian retro movies."

KEY SKILLS

Frontend : Next.js, React.js, Zustand Javascript, Typescript, Tailwind, Bootstrap HTML, CSS

Backend : NestJS

Database : MongoDB, Postgres

Other : C++, Git, Postman, Strapi CMS

EDUCATION

Nagesh Karajgi Orchid College of Engg. and Tech.

Jul 2019 - Jun 2023

B.Tech (8.35 CGPA)

Solapur

Walchand College of Arts and Science, Solapur

Jun 2017 - Mar 2019

HSC

Solapur

Little Flower Convent High School

Jun 2016 - Mar 2017

SSC
